ADVANCED ALL NATURAL HEALTH SUPPLEMENTS FOR PETS

AT BROADREACH NATURE+ WE BELIEVE IN ALL NATURAL PET CARE

I think of my pets as part of my family and treat them with the same care and consideration as we would any other family member, as I am sure you do.

From a very early age I have been involved with animals and got the opportunity 15 years ago, when my daughter was born, to focus my attention on our dogs, cats and horses.

Like you I aim to give my animals the very best that I can, all within the natural ethos. This is why over the years I have worked closely with Vets and Associated Professionals to develop Broadreach Nature+, a range of Natural Pet Supplements (Nutraceuticals) which I believe to be one of the best on the market. The exciting bit, Broadreach Nature + is now available to the retail sector.

TRUST IN OUR PRODUCTS

We know that it is important for you that you give the best to your pets and using a product like 100% All Natural Broadreach Nature+, tried, trusted and used by over 500 Vets across the UK, should give you that peace of mind.

We don't take the health of your pet lightly. We ensure that our products are produced in pharmaceutical grade facilities using human grade ingredients with GMP (Good Manufacturing Practice) Certification. Our All Natural Veterinary Formulation products contain no artificial additives, preservatives or colourants.

CALM CARE

CALMING SUPPLEMENT FOR DOGS AND CATS OF ALL AGES

120ml / 50 capsules

Designed to help support anxiety, worry or stress related problems such as separation anxiety, boarding away from home, travelling, dealing with new situations, change of environment, loud noises, phobias or just general worriers. This product may also help with aggressive dogs and cats.

L-Tryptophan as one of the main ingredients - believed to be a mood stabilising and calming supplement. Also Valerian Root Extract and Magnesium may exhibit calming and soothing qualities. Ashwaganda Extract may also help anxiety and stress related behavioural issues due to its relaxant and calming properties.

They are in capsule form which can be given whole or sprinkled over food or liquid with dropper in palatable Natural Salmon Flavouring.

Directions for Use:

Liquid: For animals less than 10kg in body weight, use the enclosed measured dropper to give 2ml twice a day with meals. For each additional 10kg of body weight give an extra 2ml with meals or as recommended by your Vet.

Capsules: For animals less than 10kg in body weight, give one capsule daily with meals. For each additional 10kg of body weight give an extra capsule or as recommended by your Vet. The total amount of capsules given per day can be split between morning and evening meals.

Capsules can be given whole or opened and mixed with food.

Active Ingredients:

L-Tryptophan (pharmaceutical grade), Valerian Root Extract (*Valeriana Officinalis*), Ashwaganda Extract (*Withania Somnifera*), Catnip Extract (*Nepetacataria*), Chameilia Sinesis Extract, Calcium (Aspartate), Magnesium (Aspartate)

SENIOR CARE

SENIOR CARE SUPPLEMENT FOR DOGS AND CATS FOR LONG OR SHORT TERM USE

120ml / 90 capsules

This Advanced supplement may help in supporting general old age and with conditions such as liver disease, cognitive dysfunction (canine/feline Alzheimer's) and inflammatory disease. This supplement can be used for long term life time management for senior dogs and cats.

Ingredients include Milk Thistle known for its powerful antioxidant and anti inflammatory effects, a full range of B Vitamins, Inositol and also Choline for Senior Pets. All Natural Ingredients, No artificial additives, preservatives, colours or flavours – uses Natural Liver-Bacon flavour

Directions for Use:

Capsule: One capsule per 10kgs in weight daily. Can be given whole or opened and sprinkled in food (90) caps per pot.

Liquid: For Animals less than 10kg in weight use the enclosed measured dropper to give 1ml twice a day with meals. For each additional 10kg of body weight give an extra 1ml twice a day with meals or as directed by your Vet.

Active Ingredients:

Milk Thistle Extract, Inositol, Choline, DL-Methoinine, Pantothenic Acid, Vitamin B-1, Vitamin B-2, Vitamin B-6, Alpha Lipoic Acid, Vitamin B-12

PROBIOTICS

PROBIOTICS FOR DOGS OF ANY AGE ALSO CONTAINS PREBIOTICS

Sizes 15ml, 30ml and 60ml in easy to use calibrated syringe formula

Used for dogs with upset digestive systems and general sensitive stomachs. Used for the effects of diarrhoea and general gastro-intestinal upset. It uses an advanced base formulation of Bentonite Clay which has shown to be more effective than the Kaolin based clay in absorbing enterotoxins for overall gastrointestinal maintenance, gut health and vitality.

Broadreach Nature + Probiotics is a highly palatable paste combining three key ingredients which are designed to help to maintain digestive efficiency by restoring the microflora and soothing the gut lining.

Probiotics in the form of Enterococcus Faecium (NC1MB 104 15) are aimed at maintaining a high level of beneficial bacteria in the gut. Fructo-oligosaccharides (prebiotics) to provide nourishment for the probiotics and Bentonite Clay which is a natural binding agent to help firm up the faeces.

Directions for Use:

Administer orally for as long as considered necessary or as advised by your Vet. Keep at room temperature or contents will solidify if refrigerated. Once opened it does not go off and has a shelf life of over 12 months.

Under 5kg in body weight 2ml twice a day

5 - 15kg in body weight 3ml twice a day

15 - 30kg in body weight 5ml twice a day

>30kg in body weight 7ml twice a day

Active Ingredients:

Sunflower Oil, Peanut Oil, Yeast, Fructo-Oligosaccharides

NOTE: This product contains peanut oil. This oil can be used for dogs as peanuts are classed as a bean rather than a nut.

ADVANCED DIGESTIVE CARE

ADVANCED MINERAL POWDER FOR DOGS, CATS, RABBITS, GUINEA PIGS AND OTHER SMALL FURRY ANIMALS OF ANY AGE SUCH AS MICE

100g Powder – for long or short term use

May help maintain a healthy digestive system, great for pups being weaned or for conditions such as Colitis.

May also support diarrhoea issues caused by digestive disorders, sensitive digestive systems, sudden change in diet or environment or stress related anxiety. For long term use to aid conditions such as Colitis and Leaky Gut Syndrome, only if diagnosed by a Veterinary Surgeon to assess there is no other underlying cause or issue.

Directions for Use:

Give 1 level scoop 5g (1/8 tsp) for every 5kg body weight twice daily when diarrhoea is present. Give one level scoop for every 12kg twice daily for maintenance or as directed by your vet. 200 scoops per pot.

Active Ingredients:

Bentonite Clay

JOINT CARE

FOR DOGS OF ALL AGES FOR LONG OR SHORT TERM USE

60 capsules / 120 capsules

Manufactured in the UK. Advanced Extra Strength Veterinary Formulation with high levels of three anti-oxidants and two anti-inflammatory agents, Glucosamine, Chondroitin and Turmeric which has been developed and approved by Vets to help in supporting canine joint care and conditions such as arthritis, hip-dysplasia and other related joint/cartilage issues. designed for medium to extra large sized dogs, this product may help support and maintain health and mobility and may assist in promoting good health and long life.

Combatting the three major threats to good joint health:

- 1) To help support and maintain cartilage production;
- 2) Has anti-inflammatory properties;
- 3) Includes antioxidant agents which may aid pets in their senior years who get stiff and find it hard to get around.

Directions for Use:

Tablets in palatable natural beef flavour can be broken and mixed with food or given as a treat.

Initial Dose (First 4-6 Weeks):

Small Dog less than 9.9kg 1 tablet per day
Medium Dog 10-19kg 2 tablets per day
Large Dog 20-39kg 3 tablets per day

YOUNG AND AGILE

FOR YOUNG DOGS FROM 6-24 MONTHS

90 sprinkle capsules

Dogs increase their birth weight 60-70 times in the first 24 months of life which puts extreme pressure on the bone, joint growth and joint development which could cause problems such as Osteochondritis throughout their lives.

Our Young and Agile supplement may help towards preventing this. With an Advanced Veterinary Formulation it combines high levels of Glucosamine and Chondroitin alongside two natural anti-inflammatory agents and three antioxidants including Turmeric. Three in one action which may help combat the three major threats to good joint health:

- 1) To help support and maintain cartilage production;
- 2) Has anti-inflammatory properties;
- 3) Includes antioxidant agents which may aid pets in their senior years who get stiff and find it hard to get around.

Directions for Use:

Capsules which can be given whole or opened and sprinkled into food.

Initial Dose (First 4 - 6 weeks):

Less than 4.9kg two capsules daily
5 - 7.4kg three capsules daily
7.5 - 10kg four capsules daily

Maintenance Dose (after 6 weeks): half the initial dose

Active Ingredients:

Glucosamine, Chondroitin Sulphate 90%, Boswellia Serrata, Tumeric, Vitamin C, Zinc, Manganese

URINARY AND CALM CARE

FOR CATS OF ALL AGES

100 sprinkle capsules

Manufactured in the UK. Cystitis support and calming aid for Cats. With Advanced Specialist Ingredients in a Veterinary Formulation that has been developed, approved and used by Vets in the UK.

There is a strong link to feline idiopathic cystitis and environmental stress. This is due to the very sensitive and unique way a cat's brain works. This supplement may help with weak urinary tract issues. Feline Idiopathic Cystitis affects up to 10% of cats with 75% of felines over 10 years of age suffering from the condition due to stress. Urinary Care Advanced contains a combination of N Acetyl D Glucosamine, Hyaluronic Acid, L Tryptophan, Quercetin and L Theanine. The combination of these extra strength ingredients may support and aid in the recovery of this condition.

Directions for Use:

Small, easy to digest, 100 capsules which can be given whole or sprinkled over food. After an initial 2 week period dosage can be halved.

First Two Weeks

<3kg 1 capsule per day, >3kg 2 capsules per day

Maintenance

<3kg 1 capsule every other day, >3kg 1 capsule every other day day

Active Ingredients:

N-Acetyl D Glucosamine 99%, L-Tryptophan, L-Theanine, Quercetin, Hyaluronic Acid
